Stand strong against the flu with AFLURIA® QUADRIVALENT

A trusted seasonal flu vaccine for people 6 months and older¹

Important Safety Information

What is AFLURIA® QUADRIVALENT (Influenza Vaccine)?

AFLURIA QUADRIVALENT is a vaccine that helps protect people aged 6 months and older from the flu. Vaccination with AFLURIA QUADRIVALENT may not protect all people who receive the vaccine.

Please see Important Safety Information on the back and accompanying US full Prescribing Information for AFLURIA QUADRIVALENT here.
Why is getting your flu shot every year so important?

The flu affects millions of Americans each year. Getting a seasonal flu shot every year is the best way to help protect against the flu.²

The flu virus can mutate or change constantly, which is why you should get a flu shot each year.²

Did you know?
During the most recent flu season (2019-2020) in the US, the Centers for Disease Control and Prevention (CDC) estimates the flu caused up to*³:

- 39-56 million illnesses
- 410,000-740,000 hospitalizations
- 24,000-62,000 deaths

The CDC recommends everyone 6 months and older gets vaccinated for the flu every year, with rare exception.¹²

Help protect yourself and those you love

AFLURIA QUADRIVALENT is a trusted seasonal flu shot for people 6 months and older that helps protect against all 4 flu viruses included in the flu shot.¹

A few benefits of AFLURIA QUADRIVALENT:
- A needle-free option is available for people 18 years through 64 years of age¹
- It’s covered by Medicare Part B and most major health plans, plus you may even qualify for $0 copayment or deductible‡§
- Preservative-free options are available (they do not contain thimerosal)¶¹

Important Safety Information
Who should not get AFLURIA QUADRIVALENT?
You should not get AFLURIA QUADRIVALENT if you have had a severe allergic reaction to any of the ingredients in the vaccine in the past, including egg protein, or a severe allergic reaction to a previous influenza vaccine.

*Estimates are from October 1, 2019, through April 4, 2020.
†The CDC makes no preferential recommendations of any one vaccine product over another.
‡Talk with your insurance provider to understand your coverage benefits.
§This information does not constitute a guarantee or warranty of coverage benefits.
¶Afluria has 2 preservative-free options (0.25 mL for 6 months through 35 months and 0.5 mL for 36 months and older) as well as 1 multi-dose vial option.

Talk to your doctor or pharmacist to learn more about AFLURIA QUADRIVALENT.
Important Safety Information (continued)

Who should not get AFLURIA QUADRIVALENT?
You should not get AFLURIA QUADRIVALENT if you have had a severe allergic reaction to any of the ingredients in the vaccine in the past, including egg protein, or a severe allergic reaction to a previous influenza vaccine.

Before receiving AFLURIA QUADRIVALENT, tell your healthcare provider about all medical conditions, including if you:

• have ever had Guillain-Barré syndrome (severe muscle weakness) within six weeks after getting a flu vaccine. The decision to give AFLURIA QUADRIVALENT should be made by your healthcare provider, based on careful consideration of the potential benefits and risks.

• have problems with your immune system or are taking certain medications that suppress your immune system, as these may reduce your immune response to the vaccine

What are the most common side effects of AFLURIA QUADRIVALENT?
• pain, redness, itching, bruising, or raised hardened area or swelling where the vaccine was given
• headache
• tiredness
• muscle aches
• feeling unwell (malaise)

Additional side effects in children include:
• diarrhea
• irritability
• loss of appetite

What do I do if I have side effects?
Ask your healthcare provider for advice about any side effects that concern you. To report SUSPECTED ADVERSE REACTIONS, contact Seqirus USA Inc. at 1-844-275-2461 or VAERS at 1-800-822-7967 or www.vaers.hhs.gov. You are also encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch, or call 1-800-FDA-1088.

Before receiving this vaccine, please see the full US Prescribing Information for AFLURIA QUADRIVALENT here. The information provided here does not include all that is known about AFLURIA QUADRIVALENT. To learn more, talk with your healthcare provider.
